INTRODUCTORY SECTION

This page is intentionally blank.

December 28, 2016

To the Honorable Mayor, Members of the City Council, and Citizens of the City of Solvang:

The City follows a policy of preparing a complete set of financial statements in conformity with U.S. generally accepted accounting principles after the end of each fiscal year. This report is published to fulfill that policy for the fiscal year ended June 30, 2016.

Management of the City of Solvang assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal control that the City has established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the City's financial statements are free of material misstatements.

The firm of Terry E. Krieg, Certified Public Accountant, has issued an unmodified independent auditor's report on the City of Solvang's financial statements for the fiscal year ended June 30, 2016. The independent auditor's report is located at the front of the financial section of this report.

Management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. The MD&A complements this letter of transmittal and should be read in conjunction with it.

Profile of the City of Solvang

Solvang, meaning "Sunny Field," was founded in 1911 by a group of Danish educators from the Midwest who were in search of a site for a Danish-type folk school. They liked what they saw and envisioned the location of the potential town, nestled between the Santa Ynez and San Rafael mountain ranges as an ideal place to launch the school and where settlers could develop a Danish Colony that we now know as Solvang. Although Solvang has since developed into one of California's main tourist attractions, its many Danish-American residents continue to perpetuate their Danish heritage as seen by the architectural style in the downtown tourist area. The City is located inland along the Central Coast, some 45 miles north of Santa Barbara, in the historic Santa Ynez Valley.

The City was incorporated on May 1, 1985. It subsequently transitioned from a General Law City to a Charter City in November 2006. Becoming a "Charter City" means we have more "local home rule" authority than cities that incorporate under the "general laws" of the State of California. The Charter is the City's "Constitution," and any changes must be approved by the voters.

The City operates under the “Council-Manager” form of government. Policy making and legislative authority are vested in the City Council consisting of the Mayor and four other elected Council members. The Council is responsible for, among other matters, passing ordinances, adopting the City Budget, appointing committees, and hiring the City Manager and City Attorney. The City Manager is responsible for carrying out the policies and ordinances of the City Council, overseeing the daily operations of the City, and appointing other employees and otherwise managing daily operations of the City. The Council members are elected to four-year staggered terms and with the election of 2008, we transitioned from an appointed Mayor to an elected Mayor with a two-year term, who serves as an equal member of the Council.

The City of Solvang provides a full range of municipal services, including contracted police services, the construction and maintenance of City streets, storm drains, bridges and similar infrastructure type assets, park maintenance and community recreation activities. Water, wastewater and transit services are provided through the use of an enterprise fund or business-type fund structure.

The annual budget serves as the foundation for the City of Solvang’s financial planning and control system. All departments of the City submit requests for appropriations to the Administrative Services Director each year. The Administrative Services Director and City Manager use these requests as a starting point for developing a proposed budget. Together, they present a proposed budget to the Finance Committee, which consists of two appointed members of the City Council. Once a final draft budget is achieved, it is presented to the City Council. The Council holds public hearings on the proposed budget and ultimately adopts a formal budget. The budget is adopted by fund, department, program, and object. The Council periodically reviews during the fiscal year the City’s actual financial activity in relationship to the original budget, and as necessary amends the original budget to reflect changing conditions.

The general fund’s budgetary comparison, deemed a major fund under the new reporting standards, is presented as required supplementary information in a separate section of this report immediately following the notes to the financial statements. For the City’s other governmental-type funds with adopted budgets, a budget to actual comparison schedule is presented as optional information in the section of this report containing combining statements and individual fund schedules.

Local Economy

The City’s economy largely depends on tourism, which generates a large portion of the City sales tax and all of the transient occupancy tax (TOT) revenues that account for a major part of the City’s revenue stream. Property tax revenues are another large source of revenue for the City. Major attractions for visitors to the City include the City’s Danish themed village with unique shops, inns, bakeries, European style streets and architecture, cafes, local wineries, art galleries, golf courses, equestrian and other livestock production, the Santa Ines Mission, and the Elverhoj Museum of History and Art.

This year the City saw increases in both transient occupancy and property tax revenues. Sales tax has become more diverse over the years in terms of its origin, however, our top three sales tax generators by business category remain food products, general retail and construction, in that order. We are projecting these revenue sources to show similar growth in fiscal year 2016-17. Transient occupancy (hotel) taxes increased this year as the occupancy rate increased about 2.2%.

While we have seen increasing trends in revenues, the City does not expect any major changes in our financial future and continues to spend within its means. The City continues to take a very conservative approach in the budgeting process. We strive to operate within current revenue streams and are careful to minimize use of reserves. Staff has an awareness of the challenges we face and continues to be conservative in their spending.

Long Term Financial Planning and Major Initiatives

This year the City completed about \$1.6 million in capital projects. For fiscal year ending 2016-17, the City has budgeted approximately \$3.4 million for capital projects, mostly for water and public works. An additional \$26 million in capital projects are planned to be completed by the year 2026. These projects include about \$15.6 million in public works projects, \$425 thousand for parks and recreation, \$1 million for transit, \$6.8 million for water and \$2.4 million for wastewater system improvements.

The General Fund ended fiscal 2015-16 with a fund balance of approximately \$9.6 million. Of that fund balance, \$4.1 million is committed for emergency reserves, and approximately \$5.3 million remained unassigned. There is approximately \$2.9 million available in Traffic Mitigation Impact Fees, Transportation Sales Tax Ballot Measures A, and Local Transportation Reserves, which will be used for future projects; mainly street infrastructure, street improvements, street maintenance, and sidewalk projects.

In fiscal year 2011 the City underwent a study for water and sewer to evaluate the utility rates and connection fees in an effort to ensure that we will be able to sustain the maintenance, capital infrastructure and required reserve levels for these funds and to ensure long term fiscal stability. The study was concluded in fiscal year 2011/12 and rate increases for a five year period were recommended and adopted by the City Council. The five year period ended June 30, 2016. The City has budgeted for a water and sewer rate study in fiscal year 2016-17.

Relevant Financial Policies

The City Council adopted a Fund Balance Policy in 2013 that sets the City's General Fund balance committed for emergency contingencies at 50% of the current year operating budget and is to be adjusted annually.

Awards and Acknowledgements

The Government Finance Officers Association (GFOA) of the United States and Canada awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Solvang for its comprehensive annual financial report (CAFR) for the fiscal year ended June 30, 2015. The City has received this award for 22 of the last 23 years. In order to be awarded a Certificate of Achievement, the City must publish an easily readable and efficiently organized CAFR that satisfied both generally accepted accounting principles and applicable legal and program requirements.

A Certificate of Achievement is valid for a one-year period only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

There are a number of benefits from participating in this program beyond simply gaining recognition for our efforts. We believe that by continually striving for excellence in meeting the program standards and goals, we have the ability to produce quality reports as well as receive comments for improvements from other municipal finance professionals. This allows us to gain a "fresh" perspective and continually improve in our reporting for the benefit of the City and the public at large.

The preparation of this report would not have been possible without the efficient and dedicated services of the *entire staff* of the Administrative Services and Finance department. We are very proud of our teamwork here and would like to express our appreciation to all members of the departments who assisted and contributed to the preparation of this report and their effort throughout the year to ensure the integrity of the financial records. A special "Thank You" to Fred Lageman, Parks and Recreation Director, for your outstanding report cover this year and for the many years prior. A special "Thank You" also goes to Dr. Kenneth Harwood, a local economist for providing his insights on the local economy. Credit must also be given to the Mayor and the Members of the City Council, and the City Manager for their continued support for maintaining the highest standards of professionalism in the management of the City of Solvang's financial affairs.

Respectfully submitted,

Independent Auditor's Report

Honorable Mayor and Members of the City Council
City of Solvang
Solvang, California

Report on the Financial Statements

I have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Solvang, California, as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the City of Solvang's basic financial statements as listed in the Table of Contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

My responsibility is to express opinions on these financial statements based on my audit. I conducted my audit in accordance with audited standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the City's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, I express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinions.

Opinions

In my opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business type activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Solvang, California as of June 30, 2016, and the respective changes in its financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in note 5H to these financial statements, the City in fiscal 2016 made a change in accounting principle to implement Governmental Accounting Standards Board (GASB) Statement Number 72, titled, Fair Value Measurement and Application, and the City also changed its method of accounting for purchases of water in its water enterprise fund. My opinions are not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages 15 through 27 and the Budgetary Comparison Schedules, Schedule of OPEB Funding Progress, Schedule of Proportionate Share of Net Pension Liability and Schedule of The City's Pension Plan Contributions on pages 63 through 68 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context.

I have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to my inquiries, the basic financial statements, and other knowledge I obtained during my audit of the basic financial statements. I do not express an opinion or provide any assurance on the information because the limited procedures do not provide me with sufficient evidence to express an opinion or provide any assurance.

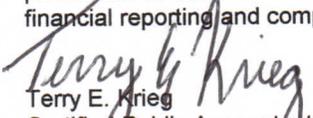

Other Information

My audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Solvang's basic financial statements. The accompanying nonmajor fund combining financial statements, budget and actual schedules, schedules of capital assets, and the introductory and statistical sections are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The nonmajor fund combining financial statements, budget and actual schedules, and schedules of capital assets is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In my opinion, the nonmajor fund combining financial statements, budget to actual schedules, and schedules of capital assets is fairly stated, in all material respects, in relation to the basic financial statements as a whole. The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, I do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, I have also issued my report, dated December 28, 2016, on my consideration of the City of Solvang's internal control over financial reporting and on my tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of my testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the City of Solvang's internal control over financial reporting and compliance.

Santa Rosa, California
December 28, 2016

Management's Discussion and Analysis

As management of the City of Solvang, we offer readers of the City of Solvang's financial statements, this narrative overview and analysis of the financial activities of the City of Solvang for the fiscal year ended June 30, 2016. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on pages 3-6 of this report.

Financial Highlights

- The general fund reported a fund balance of \$9.6 million at the end of the 2016 fiscal year; an increase of approximately \$934 thousand or 10.8% over fiscal year 2014-2015.
- Citywide, the total net position increased by \$2.4 million or 5.6% higher than 2014-2015 after conducting all operations and programs. The net position totaled \$45.2 million dollars at year-end. Of that amount, \$19.5 million (the unrestricted net position) may be used to meet the City's ongoing obligations and operating expenses for the next fiscal year.
- The City's Governmental activities reported net position of \$23.5 million dollars. Of the \$23.5 million dollars, \$8.7 million remains unrestricted and available.
- Overall, Citywide revenues from governmental activities, grants and taxes increased \$384,281 compared to the 2014-2015 fiscal year. This increase is a result of increased transient occupancy tax revenue, combined with additional capital grants and contributions.
- Impact Fees ended FY 2015-2016 with a fund balance of \$2.62 million; an increase of almost 8% from 2014-2015. The increase is the result of the final phase of development of the Skytt Mesa subdivision.
- The Proprietary funds ended the fiscal year with a net position of \$21.7 million (including the funds' net investment in capital assets).
- The City's other non-major governmental funds ended FY 2015-2016 with a fund balance of \$561 thousand dollars.

Management's Discussion and Analysis

Overview of the Financial Statements

The discussion and analysis provided here are intended to serve as an introduction to the City of Solvang's basic financial statements. The City of Solvang's basic financial statements consist of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) the notes to financial statements. This report also includes supplementary information intended to furnish additional detail to support the basic financial statements themselves.

Government-wide Financial Statements. The *government-wide financial statements* are designed to provide readers with a broad overview of the City of Solvang's finances, in a manner similar to a private-sector business.

The *statement of net position* presents financial information on all of the City of Solvang's assets and liabilities, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City of Solvang is improving or deteriorating.

The *statement of activities* presents information showing how the City of Solvang's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave). Both of the government-wide financial statements distinguish functions of the City of Solvang that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the City of Solvang include general government, public safety, highways and streets, planning and economic development, and culture and recreation. The business-type activities of the City of Solvang include water, wastewater and transit operations.

The government-wide financial statements include not only the City of Solvang itself (known as the *primary government*), but also the Solvang Conference and Visitor Bureau, a separate operation for which the City of Solvang provides over 80% of its funding annually. Financial information for this component unit is reported separately from the financial information presented for the primary government itself. The government-wide financial statements can be found on pages 31-32 of this report.

Fund Financial Statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City of Solvang, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City of Solvang can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Management's Discussion and Analysis

Governmental Funds. *Governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in assessing a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The City of Solvang maintains eight individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund, and the impact fee fund, which are considered to be major funds. Data from the other six governmental funds are combined into a single aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements in the combining and individual fund statements and schedules section of this report.

The City of Solvang adopts an annual appropriated budget for its general fund. A budgetary comparison statement has been provided for the general fund to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found on pages 33-35 of this report.

Proprietary Funds. The City of Solvang maintains two different types of proprietary funds. *Enterprise funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The City of Solvang uses enterprises funds to account for its water, wastewater and transit operations. *Internal service funds* are an accounting device used to accumulate and allocate costs internally among the City of Solvang various functions. The City of Solvang uses an internal service fund to account for the replacement of its fleet of vehicles and major equipment. Because these services predominantly benefit governmental rather than business-type functions, they have been included within *governmental activities* in the government-wide financial statements. Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the water, wastewater and transit operations, all of which are considered to be major funds of the City of Solvang. Conversely, the internal service fund is a single, presentation in the proprietary fund financial statements.

Management's Discussion and Analysis

The basic proprietary fund financial statements can be found on pages 36-39 of this report.

Fiduciary Funds. Fiduciary funds are used to account for resources held for the benefit of parties outside of the government. Fiduciary funds are *not* reported in the government-wide financials statements because the resources of those funds *are* not available to support the City of Solvang own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The City of Solvang maintains two types of fiduciary funds. The *Agency fund* reports resources held by the City of Solvang in a custodial capacity for individuals, private organizations, and other governments. The City of Solvang maintains one Agency fund on behalf of the Santa Ynez Valley Tourism Business Improvement District (District). The City collects the revenue from the local hotels, and then remits the funds to the District. The City also maintains a retiree medical trust fund used to prefund eligible retiree medical post-employment benefits.

The fiduciary fund financial statements can be found on pages 40-41 of this report.

Notes to the Financial Statements. The notes provide additional information that is necessary to acquire a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 42-59 of this report.

Other Information. In addition to the basic financial statements and accompanying notes, this report also presents *required supplementary information* concerning the general and impact fee funds budget to actual comparisons, funding progress on the City's other post employment benefits (OPEB), the City's proportionate share of the net pension liability in regards to the PERS cost sharing pool of which the City is a member, and the City's pension plan employer contributions. Required supplementary information can be found on pages 63-68 of this report.

The combining statements referred to earlier in connection with nonmajor governmental funds and internal service funds are presented immediately following the required supplementary information on the City's pension liability. Combining and individual fund statements and schedules can be found on pages 71-83 of this report.

Government-wide Overall Financial Analysis

As noted earlier, net position over time may serve as a useful indicator of a government's financial position. In the case of the City of Solvang, assets and deferred outflows of resources exceeded liabilities by \$45,173,662, at the close of the most recent fiscal year.

Management's Discussion and Analysis

City of Solvang Net Position

	Governmental Activities		Business-type Activities		Total		Total Percentage Change
	2015	2016	2015	2016	2015	2016	2015-2016

Invested in capital assets	\$ 11,748,077	\$ 11,584,893	\$ 10,409,946	\$ 10,943,614	\$ 22,158,023	\$ 22,528,507	2%
Restricted	3,004,851	3,121,123	-	-	3,004,851	3,121,123	4%
Unrestricted	7,494,627	8,798,516	10,113,723	10,725,516	17,608,350	19,524,032	11%
Total Net Position	\$ 22,247,555	\$ 23,504,532	\$ 20,523,669	\$ 21,669,130	\$ 42,771,224	\$ 45,173,662	6%

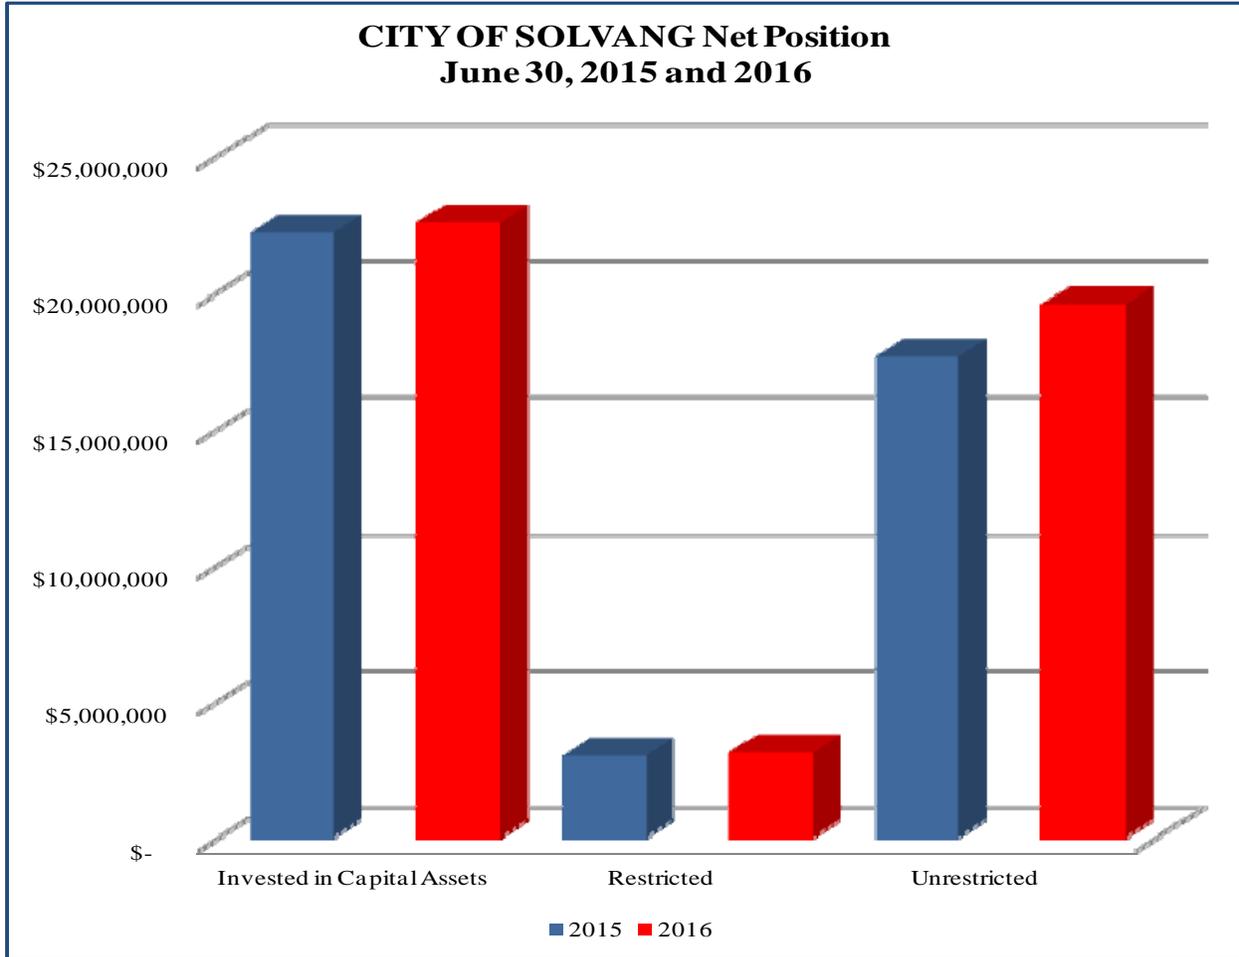

By far, the largest portion of the City of Solvang's net position (49.8%) reflects its investment in capital assets (e.g. land, buildings, machinery, equipment, vehicles, and infrastructure), less any related outstanding debt that was used to acquire those assets. The City of Solvang uses these capital assets to provide a variety of services to its citizens. Accordingly, these assets are not available for future spending.

An additional portion of the City of Solvang's net position (7%) represents resources that are subject to external restrictions on how they may be used. The remaining balance of \$19.5 million is unrestricted, and may be used to meet the government's ongoing obligations to its citizens and creditors.

At the end of the current fiscal year, the City of Solvang is able to report positive balances in all reported categories of net position, both for the government as a whole, as well as for its separate governmental and business-type activities. The same situation held true for the prior fiscal year.

Management's Discussion and Analysis

The City of Solvang's overall net position increased by \$2.4 million from the prior fiscal year. The reasons for this overall increase are discussed in the following sections for governmental and business-type activities.

Governmental Activities. Taxes are the primary source of revenue for governmental activities and account for 78% of all revenues. The tax category includes property tax, sales tax, transient occupancy tax (TOT) and other taxes.

Solvang is a tourist community and the largest portion of its tax revenues come from transient occupancy tax (local hotel tax). These taxes generate 47% of all governmental-type revenues. In FY 2015-16, local hotel tax increased \$362,296 or 9% from fiscal year 2014-15. In addition, occupancy of rooms increased approximately 2.2% in fiscal year 2015-2016, to a new high of 74.2%.

Management's Discussion and Analysis

The City's governmental-type operating expenses consist of public safety, culture and recreation, public works, general government and community development.

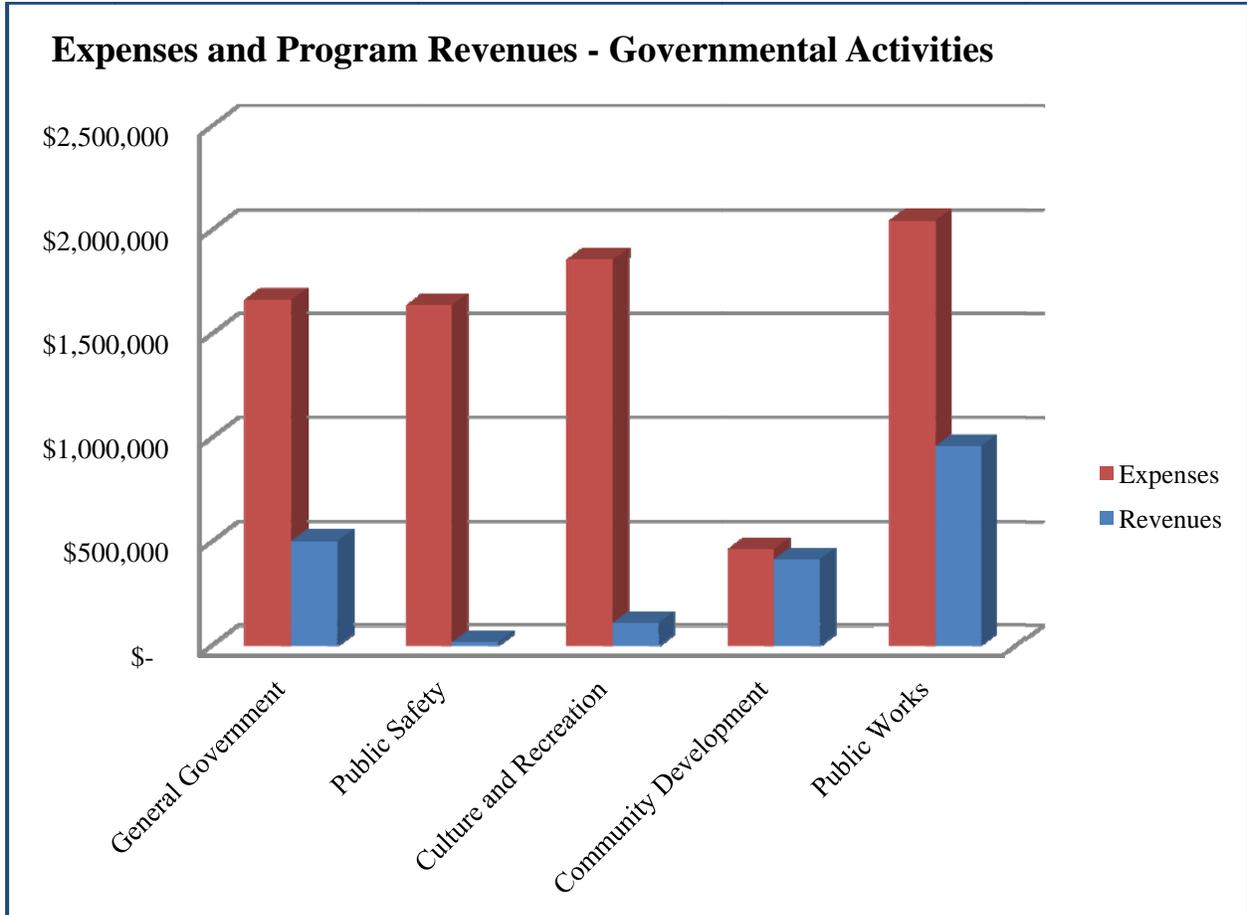

When all operations were concluded, the governmental activities function generated an increase of \$1.25M in net position primarily due to an increase in general revenues and capital grants and contributions.

Management's Discussion and Analysis

Business-type Activities. For the City of Solvang’s business-type activities, the City’s net position increased slightly, to end the year at \$21,669,130. The increase in net position for business-type activities (water, wastewater, and transit funds) was \$1,145,461 from the prior fiscal year. Water revenue remained relatively flat, due to a combination of conservation efforts and a penalty structure implemented during the drought dependent on usage. Wastewater had an increase in revenue as a result of its agreement with the Santa Ynez Community Services District (sharing capital costs). Overall, revenues decreased by about 3%, while expenditures decreased 10%.

Financial Analysis of Governmental Funds

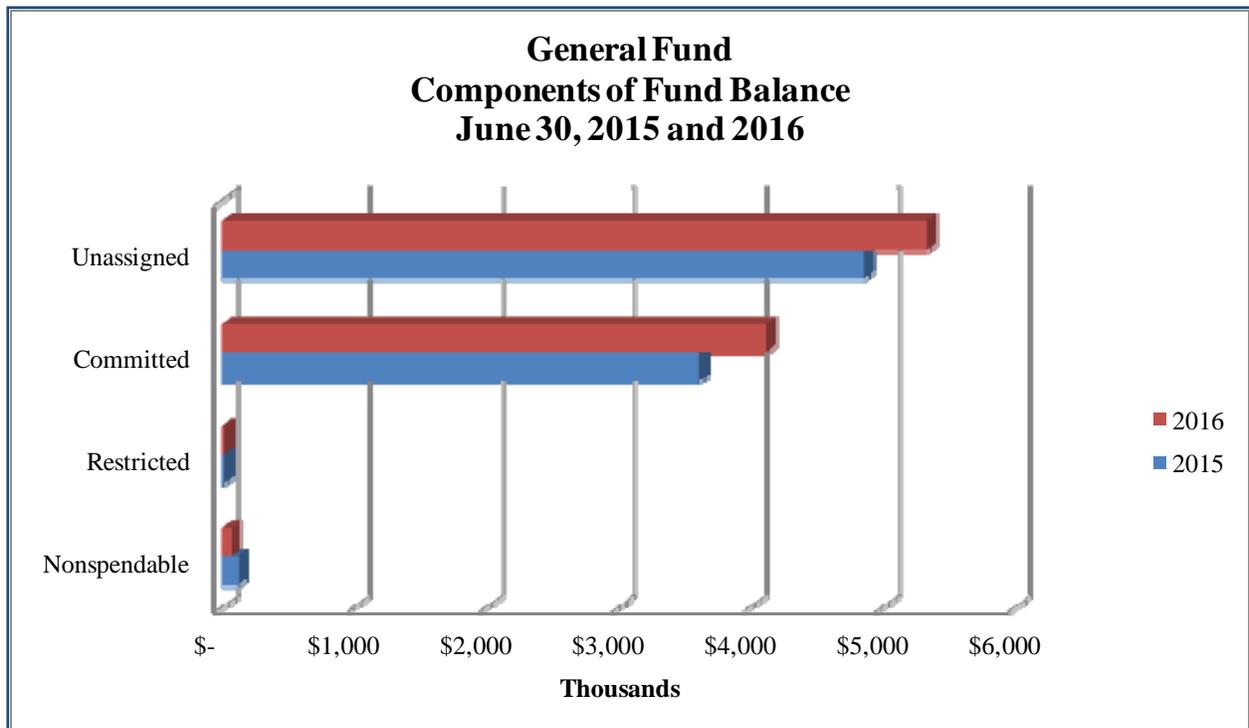

As noted earlier, the City of Solvang uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Management's Discussion and Analysis

Governmental Funds. The focus of the City of Solvang's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City of Solvang's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for discretionary use as they represent the portion of fund balance which has not yet been limited to use for a particular purpose by either an external party, the City of Solvang itself, or a group or individual that has been delegated authority to assign resources for use for particular purposes by the City of Solvang's Council.

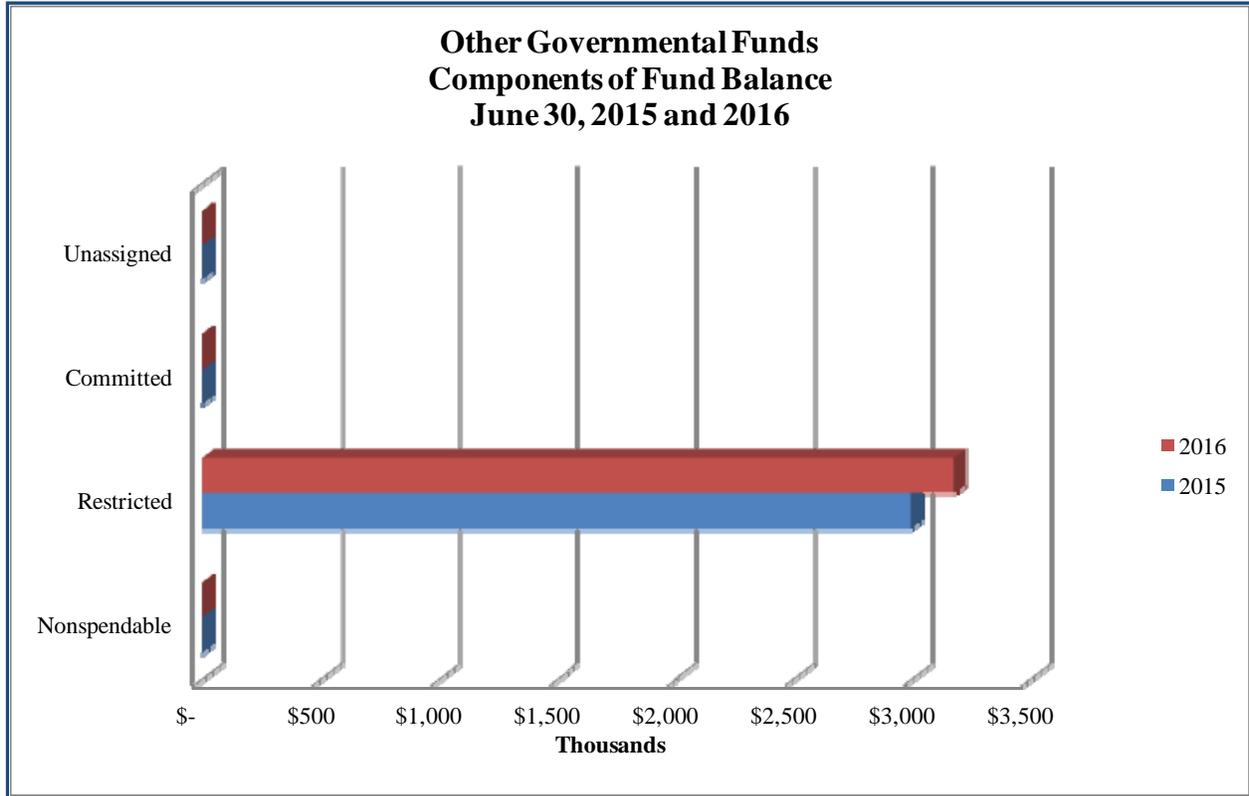

At June 30, 2016, the City of Solvang's governmental funds reported combined fund balances of \$12,748,299, an increase of \$1,117,608 in comparison with the prior year. Approximately 42% of this amount (\$5,345,636) constitutes unassigned fund balance, which is available for spending at the government's discretion. The remainder of the fund balance is either nonspendable, restricted, or committed, to indicate that it is 1) not in spendable form (\$76,502), 2) restricted for particular purposes (\$3,198,841), or 3) committed for particular purposes (\$4,127,320). The increase in governmental funds from fiscal year 2014-15 to 2015-2016, was due primarily to the increase in the General Fund as a result of higher transient occupancy taxes.

The general fund is the chief operating fund of the City of Solvang. At the end of the current fiscal year, unassigned fund balance of the general fund was \$5,345,636, while total fund balance increased to \$9,568,138.

Management's Discussion and Analysis

Proprietary Funds. The City of Solvang’s proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted net position for the Water and Wastewater funds at the end of the year were \$5,824,125 and \$4,032,697 respectively. The total growth in net position for Water was \$673,662, and Wastewater was \$205,197. The increase in Net Position in the Water Fund is attributed primarily to the change in accounting principle (see Notes to the Financials, 5.H). However both Water and Wastewater continued to receive additional capital contributions as a result of the ongoing development of Skytt Mesa.

Transit operations unrestricted net position totaled \$868,694, an increase of \$266,602 from fiscal year 2014-15. Transit operations overall net position increased by 22% to end the fiscal year at \$1,466,109, primarily due to capital contributions, which includes money from federal programs to assist with transit capital purchases, and operating subsidies.

Management's Discussion and Analysis

General Fund Budgetary Highlights

Original budget compared to final budget. There was one budget adjustment (greater than \$100 thousand), to increase original budgeted expenditures - listed below:

Expenditure Budget Adjustments	Initial Budget	Final Budget	Difference
Other Post Emp Benefits	\$ 59,209	\$ 402,056	\$ 342,847

The City Council chose to establish a trust for its unfunded liability for other post employment benefits. In doing so, the City Council voted to increase the initial contribution to the trust. This is discussed more in Note 5.F on page 57 of this report. Generally, the movement of the appropriations between departments was not significant.

Final budget compared to actual results. The most significant differences between estimated revenues and actual revenues were as follows:

Revenue Source	Final Budgeted Revenues	Actual Revenues	Difference
Transient Occupancy Taxes	\$ 3,556,000	\$ 4,195,940	\$ 639,940
Building Permits	\$ 90,000	\$ 160,734	\$ 70,734

A review of actual expenditures compared to the appropriations in the final budget yields no significant variances. Overall, actual expenditures were less than budgeted expenditures by \$523,476.

Capital Asset and Debt Administration

Capital assets. The City of Solvang's investment in capital assets for its governmental and business-type activities as of June 30, 2016, amounts to \$22,528,507 (net of accumulated depreciation). This investment in capital assets includes land, buildings, machinery, equipment, vehicles, park facilities, roads, highways, bridges, and the wastewater treatment plant. The investment in capital assets increased by 1.7%. Major capital asset events during fiscal year 2015-16 included the following:

Management's Discussion and Analysis

Well Development	\$ 750,971
Slurry Seal/Parking Lot Paving	\$ 348,381
Wastewater Treatment Plant Garage	\$ 298,523
Transit Busses	\$ 148,312
Backhoe	\$ 129,330
Vet's Hall Window Replacement	\$ 74,671

Additional information on the City of Solvang's capital assets can be found in Note 4.D on pages 50-52 of this report.

Long-term Debt. Under insurance arrangements, the City is self-insured for the first \$50,000 for each workers' compensation claim, \$20,000 for each general liability claim, and \$5,000 per property damage claim. The statement of net position also shows no liability for 2016 for estimated claim obligations and has no current obligation for 2016. This liability was fully funded and paid in 2016, and there were no pending claims at the end of the fiscal year.

The City has a take or pay water purchase agreement with the Santa Ynez River Water Conservation District, Improvement District No. 1 (ID No.1) where the City must make annual payments for the water whether or not water is delivered. ID No 1. has pledged its water sale revenue from Solvang for repayment of its long-term debt. Solvang has an ongoing commitment to buy water from ID No 1, but the bonded debt is that of ID No. 1 and not the City of Solvang. The agreement requires annual payments until 2035.

Additional information on the City's long-term debt can be found starting on page 52 of the notes to the financial statements

Economic Factors and Next Year's Budget and Rates

The following economic factors currently affect the City of Solvang and were considered in developing the 2016-17 fiscal year budget:

- In June 2016, the City Council adopted a General Fund budget with expenditures greater than budgeted revenues. This was to provide monies to the Water Fund for the purchase of additional water. Given the anticipated amount of available unassigned fund balance at the end of FY 2015-16 of approximately \$5M, the City Council anticipated using those funds to make up the budgeted deficit of \$661K. We do not anticipate the reduction of any public services or staff in the coming year.
- In 2011, an annual increase in water rates was approved and scheduled for each November from fiscal year 2011-12 through fiscal year 2015-2016. The additional funds generated by the increase were to support maintenance and capital replacement costs, as well as adequate funding of reserves. However, with the State of California in a severe drought, the impact of the rate increase has been diminished by the need to purchase additional water and move

Management's Discussion and Analysis

forward with capital projects to ensure long term water resources. In FY 2014-15, the City Council voted to not increase water usage rates, but to instead implement a penalty structure tied to usage and compared to calendar year 2013 as a baseline. All of these factors, in addition to anticipated increases in state and federal water quality mandates have contributed to increasing costs in the Water fund. The City Council has budgeted for a water and sewer rate study in FY 2016-17.

- As property values slowly increase, the taxable assessed value as a percentage of estimated actual value in property assessments increases, and contributes to the increase in City revenues.
- The City continues to see yearly increases in transient occupancy taxes and revenue for the City.
- Increases are expected in pension and other employee benefit costs. These rates will be increasing 5-6% over the next 4 years as CalPERS adjusts their methodology and assumptions.
- The City of Solvang relies heavily on tourism, with over 1.5 million visitors annually, requiring daily services for residents and non-residents alike.
- The State's budget remains a source of concern as it is always surrounded by uncertainty, however the State's finances continue to improve as a result of increased sales and property taxes.

Requests for Information

This financial report is designed to provide a general overview of the City of Solvang's finances for anyone with an interest in the government's finances. If you have questions about this report or need additional financial information, contact the Administrative Services Director at:

CITY OF SOLVANG
Reconciliation of the Statement of Revenues, Expenditures
and Changes in Fund Balances of Governmental Funds
To the Statement of Activities
For the Fiscal Year Ended June 30, 2016

Net Change in Fund Balances - Total Governmental Funds	<u><u>\$ 1,117,608</u></u>
Amounts reported for governmental activities in the statement of activities are different because:	
Governmental funds report capital outlays as expenditures, however, in the statement of activities, the cost of those assets are allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays of \$532,697 exceed depreciation (\$748,825) in the current period.	(216,128)
Decreases in liabilities for other post employment benefits (OPEB) require the use of current financial resources, but reduce liabilities in the statement of net position	331,633
Changes in the net pension liability do not use or provide current financial resources and are reported in the statement of activities, but not in the fund statements.	(115,004)
Some expenses in the statement of activities for noncurrent liabilities such as long-term compensated absences do not require the use of or provide current financial resources and, therefore, are not reported as expenditures in the governmental funds	1,984
Internal service funds are closed by charging additional amounts or reducing charges to participating governmental activities to completely cover the internal service fund's costs	<u>136,884</u>
Net differences	<u><u>139,369</u></u>
Change in Net Position of Governmental Activities	<u><u>\$ 1,256,977</u></u>

The notes to financial statements are an integral part of this statement.

CITY OF SOLVANG
Notes to the Basic Financial Statements
June 30, 2016

1. Summary of Significant Accounting Policies

A. Reporting Entity

The City of Solvang is a municipal corporation governed by an elected five-member City Council. The accompanying financial statements present the government, its component units, entities for which the government is considered to be financially accountable. The Solvang Joint Powers Financing Authority is a legally separate corporate entity for which the City is financially accountable and is governed by the elected City Council. The Authority was formed to provide a method of financing public improvements. The financial activities of the Authority are blended with those of the City and are reported in the City's governmental funds, and as capital assets of the City and debt obligations of the City. The Solvang Conference and Visitors Bureau is a nonprofit benefit corporation established to promote tourism within the city; and it is reported as a discretely presented component unit because the City is financially accountable for it and the City has assumed the obligation to provide financial support to the Conference and Visitors Bureau. Separate financial statements are not available for these component units.

B. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the activities of the City. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*. Separate financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the *proprietary fund financial statements*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims are recorded only when payment is due. Assets in the governmental funds that do not meet the availability criterion for recognition as revenue in the governmental funds are classified as a deferred inflow of resources as those resources are not available for spending in the current period.

CITY OF SOLVANG
Notes to the Basic Financial Statements
June 30, 2016

Note 1. Summary of Significant Accounting Policies (continued)

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

Property taxes, sales taxes, transient occupancy taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period are considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the government. The City reports the following major governmental funds:

The *General Fund* is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund. The *Impact Fee Fund* is a special revenue fund used to account for impact fees restricted by law to use only for the specific purpose of the fee.

The City reports the following major proprietary funds:

The *water fund* accounts for the operations of the City's water treatment and distribution system.

The *wastewater fund* accounts for the operation of the City's wastewater treatment plant and collection facilities.

Additionally, the City reports the following fund type:

The internal service fund is used to account for the City's vehicle fleet and major equipment.

The City applies all applicable Financial Accounting Standards Board (FASB) pronouncements in reporting for its proprietary operations, and the provisions of GASB Statement Number 62, Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes and other charges between the City's water and wastewater function and other functions of the City. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as *program revenues* include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the proprietary fund's principal ongoing operations. The principal operating revenues of the City's enterprise and internal service funds are charges to customers for sales and services. Operating expenses for the enterprise and internal service funds include the costs of sales and services, administration costs and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

CITY OF SOLVANG
Notes to the Basic Financial Statements
June 30, 2016

Note 1. Summary of Significant Accounting Policies (Continued)

D. Assets, Liabilities, and Net Assets or Equity

1. Deposits and Investments

The City is authorized by its most recent investment policy to invest in the State of California Local Agency Investment Fund, U.S. Treasury bonds, bills, and notes, obligations issued by U.S. Government agencies, banker's acceptances, repurchase agreements, commercial paper, money market funds, time deposits and demand accounts.

The City's cash and cash equivalents are considered to be cash on hand, demand deposits, and short term investments with original maturities of three months or less from the date of acquisition.

Investments for the City are reported at fair value. The State Local Agency Investment Fund is operated in accordance with appropriate state laws and regulations. The reported value of the pool is the same as the fair value of the pool shares.

2. Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable government funds to indicate that they are not available for appropriation and are not expendable available financial resources.

All trade and property tax receivables are not shown net of an allowance for uncollectibles.

Property taxes are levied as of March 1 on property values assessed as of the same date. State statutes provide that the property tax rate be limited generally to one percent of market value, be levied by only the County, and be shared by applicable jurisdictions. The County of Santa Barbara collects the taxes and distributes them to taxing jurisdictions on the basis of assessed valuations subject to voter-approved debt. Property taxes are due on November 1 and March 1, and become delinquent on December 10 and April 10. The City receives property taxes pursuant to an arrangement with the County known as the "Teeter Plan". Under the plan, the County assumes responsibility for the collection of delinquent taxes and pays the full allocation to the City. The City recognizes property tax revenues in the fiscal year in which they are due to the City.

3. Inventories and Prepaid Items

All inventories are valued at cost using the first-in/first-out (FIFO) method. Inventories of governmental funds are recorded as expenditures when used or consumed.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements. Such prepayments are accounted for using the consumption method in the governmental funds.

CITY OF SOLVANG
Notes to the Basic Financial Statements
June 30, 2016

Note 1. Summary of Significant Accounting Policies (Continued)

D. Assets, Liabilities, and Net Assets or Equity (Continued)

4. Capital Assets

Capital assets include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items). They are reported in the applicable governmental-type or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 (\$100,000 for infrastructure type assets) and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. Under the GASB 34 Implementation Rules, the City is a Phase 3 entity and was not required to record infrastructure assets existing or acquired prior to July 1, 2002 at the date these new financial reporting standards were implemented. The City has not recorded such assets. The costs of normal maintenance and repairs that do not add to the value of asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of the business-type activities is included as part of the capitalized value of the assets constructed. Property, plant, and equipment of the City are depreciated using the straight line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings and improvements	7 - 50
Public domain infrastructure	50
System infrastructure	50
Vehicles and equipment	5 - 10

5. Compensated Absences and Other Post Employment Benefits

It is the government's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. There is a liability for a portion of unpaid accumulated sick leave since the City does have a policy to pay certain amounts when employees separate from service with the City. All vacation pay and applicable sick leave is accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in the governmental funds only if they have matured, for example, as a result of employee resignations and retirements. The City accrues each year as a liability in the government-wide financial statements a liability for the difference between the actuarially determined annual required contribution to its OPEB Plan and the amounts actually contributed by the City for each fiscal year.

6. Long-term Obligations

In the government-wide financial statements, and the proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities or proprietary fund type statement of net assets.

7. Fund Balances – Governmental Funds

Fund balances for governmental funds are reported in classifications based primarily on the extent to which the City is bound to honor constraints about the specific purposes for which amounts in those funds can be spent. These classifications include (1) nonspendable, (2) restricted, (3) committed, (4) assigned and (5) unassigned amounts.

CITY OF SOLVANG
Notes to the Basic Financial Statements
June 30, 2016

Note 1. Summary of Significant Accounting Policies (Continued)

D. Assets, Liabilities, and Net Assets or Equity (Continued)

7. Fund Balances – Governmental Funds (Continued)

Nonspendable amounts generally are items not expected to be converted into cash such as inventories and prepaid items. Restricted amounts include those where constraints placed on the uses of the resources are externally imposed by grantors, contributors, other governments or by laws or regulations. Committed amounts are those that can only be used for a specific purpose as determined by the City Council. Such committed amounts may be redeployed for other uses only by the direction of the City Council. Commitments are established, modified, or rescinded by the City Council adopting such action by resolution. Assigned amounts are fund balance amounts constrained by the City's intent to be used for specific purposes as determined by the City Manager or City Administrative Services Director. Unassigned fund balance amounts are the residual amounts reported in only the general fund.

When expenditures are incurred for which both restricted and unrestricted (committed, assigned or unassigned) amounts are available, the City considers restricted amounts to have been spent first. When expenditures are incurred for which any class of unrestricted fund balance could be used, the City considers committed amounts would be reduced first, followed by assigned amounts, and then unassigned amounts.

8. Comparative Data

Comparative total data for the prior year have been presented in order to provide an understanding of the changes in net position. Also, certain amounts presented in the prior year data have been reclassified to be consistent with the current years' presentation.

9. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the State of California Public Employees Retirement System (PERS) and additions to or deductions from the PERS fiduciary net position have been determined on the same basis as they are reported by the PERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

9. Fair Value Measurements – Investments.

The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted market prices in active markets for identical assets; Level 2 inputs are significant other observable inputs, and Level 3 inputs are significant unobservable inputs. The City has no separately held investments and its funds are held primarily by the Local Agency Investment Fund (LAIF) of the State of California. The LAIF is valued by pricing methods viewed as Level 1 inputs.

CITY OF SOLVANG
Notes to the Basic Financial Statements
June 30, 2016

2. Reconciliation of Government-Wide and Fund Financial Statements

A. Explanation of Certain Differences between the Governmental Fund Balance Sheet and the Government-Wide Statement of Net Position

The governmental fund balance sheet includes reconciliation between *fund balance – total governmental funds* and *net position – governmental activities* as reported in the government-wide statements of net position. One element of that reconciliation explains that “capital assets are not financial resources and are not reported in the funds.” The details of this \$11,480,773 difference are as follows:

Capital assets	\$ 19,259,422
Less: Accumulated depreciation	<u>(7,778,649)</u>
Net adjustment to increase <i>fund balance – total governmental funds</i> to arrive at net position – governmental activities	<u>\$ 11,480,773</u>

Another element of the reconciliation explains that "long-term liabilities" are not due and payable in the current period and, therefore, are not reported in the funds. The details of this \$(364,169) difference are as follows:

Long-Term Obligations:	
Net OPEB Obligation	\$ (221,392)
Compensated absences payable	<u>(142,777)</u>
Net adjustment to decrease fund balance total governmental Funds to arrive at net position - governmental activities	<u>\$ (364,169)</u>

B. Explanation of Certain Differences between the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances and the Government-Wide Statement of Activities

The governmental fund statement of revenues, expenditures, and changes in fund balances includes reconciliation between *net changes in fund balances – total governmental funds* and *changes in net position of governmental activities* as reported in the government-wide statement of activities. One element of that reconciliation explains that “Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of these assets is allocated over their estimated useful lives and reported as depreciation expense.” The details of this \$139,369 difference and other significant components of the difference are as follows:

Capital outlay	\$ 532,697
Depreciation expense	(748,825)
Other post employment benefit expense	331,633
Net pension liability	(115,004)
Other items	<u>138,868</u>
Net adjustment to increase <i>net changes in fund balances – total governmental funds</i> to arrive at <i>changes in net position of governmental activities</i>	<u>\$ 139,369</u>

CITY OF SOLVANG
Notes to the Basic Financial Statements
June 30, 2016

3. Stewardship, Compliance, and Accountability

A. Budgetary Information

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for all governmental funds, except repayments of internal balances in the general fund are budgeted as an expenditure for budgetary purposes. Appropriations lapse at fiscal year end. The appropriated budget is prepared by fund, function and department. The City Manager may make transfers of appropriations within a department. Transfers between departments and other changes require City Council approval. The legal level of control is the department and fund level. The Council made supplemental appropriations during the fiscal year. Encumbrance accounting is not employed in governmental funds.

4. Detailed Notes on All Funds

A. Deposits and Investments

Deposits and investments at June 30, 2016 consisted of the following:

Pooled demand deposits	\$ 1,125,208
Pooled investments (including \$40,332 in fiduciary funds)	<u>20,060,002</u>
Total deposits and investments	<u>\$ 21,185,248</u>

Custodial Credit Risk - Deposits. Custodial credit risk is the risk that in the event of a bank failure, the City's deposits may not be returned to it. The City's policy for deposits is that they will be made only in institutions in California, they shall be insured or collateralized with United States backed securities, and time certificates of deposit shall have a maturity of less than three years. At June 30, 2016, \$1,267,756 of the City's bank balances of \$1,517,756 was exposed to credit risk as follows:

Uninsured and collateral held by pledging banks agent but not in the City's name:	<u>\$ 1,267,756</u>
--	---------------------

Of the discretely presented component unit's bank balance of \$91,494, \$91,494 was insured and not exposed to credit risk.

Investments - At June 30, 2016, the City had the following investments.

Type Investment	Average Maturity	Fair Value
State Investment Pool (LAIF)	167 Days	\$ 20,060,002
		<u>\$ 20,060,002</u>

Interest Rate Risk - As a means of limiting its exposure to fair value losses arising from rising interest rates, the City's investment policy limits the City's investment portfolio to maturities of five years or less.

Credit Risk - State law limits investments in various securities to certain level of risk ratings issued by nationally recognized statistical rating organizations. It is the City's policy to comply with State law as regards securities ratings. The City's investment in the State Investment Pool is unrated.

Custodial Credit Risk - For an investment, custodial credit risk is the risk that, in the event of the failure of a counterparty, the City will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The City's investment policy specifies that securities are to be held by a third party, other than the counterparty, in the City's name, whenever possible. The investment in the LAIF is not subject to custodial credit risk.

CITY OF SOLVANG
Notes to the Basic Financial Statements
June 30, 2016

4. Detailed Notes on All Funds (Continued)

A. Deposits and Investments

The investment in the LAIF is valued using level 1 inputs. The City is the fiduciary for the City's Other Post Employment Benefit Trust (OPEB). At June 30, 2016, the City had invested \$403,072 in the California Employer's Retiree Benefit Trust (CERBT) for the purpose of funding such retiree benefits.

B. Receivables

Receivables as of year-end for the government's individual major and nonmajor funds in the aggregate, net of the applicable allowances for uncollectible accounts, are as follows:

	General Fund and Internal Service	Impact Fee Fund	Nonmajor Funds	Total Governmental	Water Wastewater	Nonmajor Proprietary
Accounts	\$ 30,410	\$ -	\$ -	\$ 30,410	\$ 725,483	\$ -
Taxes	665,398	-	-	665,398	-	-
Interest	11,764	3,451	907	16,122	9,104	1,028
Governments	76,502	-	84,022	160,524	-	281,351
Totals	\$ 784,074	\$3,451	\$ 84,929	\$ 872,454	\$ 734,587	\$ 282,379

C. Interfund Transfers, Receivables and Payables

1. The composition of interfund transfers of June 30, 2016 is as follows:

	General Fund	Non-Major Funds	Transit Fund	Water Enterprise Fund	Wastewater Enterprise Fund	Total Transfers
Transfers In:						
Transfers Out:						
Nonmajor funds	\$ 176,076	\$ -	\$ 2,000	\$ -	\$ -	\$ 178,076
Totals	\$ 176,076	\$ -	\$ 2,000	\$ -	\$ -	\$ 178,076

The primary purpose of the transfers out of the nonmajor funds was to provide \$176,076 for projects being conducted by the general fund.

2. The composition of internal balances was:

Receivable Fund	Payable Fund	Amount
Advances:		
Wastewater enterprise:		
Loan to water enterprise for the purpose of financing early retirement of installment agreement	Water fund	\$ 22,278
	Total	\$ 22,278

June 30, 2016

4. Detailed Notes on All Funds (Continued)

D. Capital Assets (Continued)

Depreciation and amortization expense was charged to functions/programs of the City as follows:

Governmental activities:

General government	\$	68,902
Public safety		6,250
Culture and recreation		163,052
Infrastructure streets		510,621
Vehicles- internal service fund		<u>29,551</u>

Total depreciation expense-governmental activities	\$	<u><u>778,376</u></u>
--	----	-----------------------

Business-type activities:

Water	\$	226,184
Wastewater		417,731
Transit		<u>115,877</u>

Total depreciation expense-governmental activities	\$	<u><u>759,792</u></u>
--	----	-----------------------

E. Long-Term Obligations

Changes in Long-term liabilities

Long-term debt activity for the 2016 fiscal year was as follows:

	Beginning Balance	Additions	Reductions	Ending Balance	Due Within One Year
Governmental Activities:					
Compensated absences	\$ 144,761	\$ 48,353	\$ 50,337	\$ 142,777	\$60,000
Total	<u>\$ 144,761</u>	<u>\$ 48,353</u>	<u>\$ 50,337</u>	<u>\$ 142,777</u>	<u>\$60,000</u>
Business-type Activities:					
Compensated absences	\$ 58,699	\$ 59,436	\$ 58,699	\$ 59,436	\$49,536
Total	<u>\$ 58,699</u>	<u>\$ 59,436</u>	<u>\$ 58,699</u>	<u>\$ 59,436</u>	<u>\$49,536</u>

The general fund is typically used to liquidate the liability for compensated absences applicable to the City's governmental activities.

CITY OF SOLVANG
Notes to the Basic Financial Statements
June 30, 2016

5. Other Information

A. Risk Management

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters for which the City carries insurance. The City is a member of the California Joint Powers Insurance Authority (California JPIA). The California JPIA provides general liability insurance to the City with a \$50 million per occurrence and \$50 million per year aggregate limit. The City also participates in the Insurance Authority's workers compensation insurance program. The risk of loss is transferred to the California JPIA. The City is subject to retrospective premium adjustments under the arrangement.

The uninsured risk retained by the City is \$50,000 per incident for workers compensation claims, \$20,000 per incident for general liability claims, and \$5,000 per property damage claim. The Insurance Authority purchases commercial insurance for claims in excess of its deductible amounts which is \$5 million for liability and \$500,000 for workers compensation. Insurance transactions are accounted for in the general fund. Liabilities of the City are reported in the statement of net assets for the governmental activities when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported (IBNRs). The result of the process to estimate the claims liability is not an exact amount as it depends on many complex factors, such as inflation, changes in legal doctrines, and damage awards. Accordingly, claims are reevaluated periodically to consider the effects of inflation, recent claim settlement trends (including frequency and amount of pay-outs), and other economic and social factors. The estimate of the claims liability also includes amounts for incremental claim adjustment expenses related to specific claims and other claim adjustment expenses regardless of whether allocated to specific claims. Estimated recoveries, for example from salvage or subrogation, are another component of the claims liability estimate. Settlements have not exceeded coverage for each of the past three fiscal years. There were no changes in the balances of claims liabilities during the past two years.

B. Contingencies and Commitments

Litigation. The City is involved in litigation incurred in the normal course of conducting City business. Although the outcome of these lawsuits is not presently determinable, in the opinion of the City's counsel the resolution of these matters will not have a material adverse effect on the financial condition of the City.

Grants and allocations. Amounts received or receivable from grant agencies are subject to audit and adjustment by grantor agencies, principally the federal and state government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures that may be disallowed by the grantor cannot be determined at this time, although the City expects such amounts, if any, to be immaterial.

C. Operating Agreements

Water Supply Agreement. The City has an agreement with the Santa Ynez River Water Conservation District, Improvement District One, wherein the District and The Central Coast Water Authority constructed and operate a joint water treatment facility and water conveyance system. The Authority financed the plant and system by selling revenue bonds, and in 1997, issued \$198 million in refunding revenue bonds. The agreement is a take-or-pay obligation, and the City is obligated to pay amounts specified in the agreement whether or not water is treated or delivered. The amounts paid by the City are pledged by the Authority for repayment of the Authority's debt obligations. The City records these payments as operating expenses in its water enterprise fund.

CITY OF SOLVANG
Notes to the Basic Financial Statements
June 30, 2016

5. Other Information (Continued)

D. Public Employee Pension Plan

Plan Description - The plan is a cost-sharing multiple-employer defined benefit pension plan administered by the California Public Employees' Retirement System (CalPERS). The CalPERS is governed by a 13 member Board of Administration with six elected members, three appointed members and four ex officio members which include the State Treasurer, the State Controller, the Director of the California Department of Human Services and a designee of the State Personnel Board.

Benefits Provided - The CalPERS provides retirement, disability and death benefits. Retirement benefits are defined as 2.5 percent of the employees final 12 months average compensation times the employee's years of service (3.0 percent for safety employees) Employees with 10 years of continuous are eligible to retire at age 55 (age 50 for safety employees) Employees are eligible for service-related disability benefits regardless of the length of service. Five years of service is required for non-service-related disability eligibility. Disability benefits are determined in the same manner as retirement benefits but are payable immediately without an actuarial reduction. Pre-retirement death benefits equal an employee's final full-year salary. Both plans provide for a 2 percent Cost of Living Adjustment (COLA). The public safety plan is closed to new entrants.

Contributions – Section 20814 (c) of the California Public Employees' Retirement Law (PERL) requires that the employer contribution rates for all public employees be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. The total plan contributions are determined through the CalPERS' annual actuarial valuation process. For public agency cost sharing plans covered by either the Miscellaneous or Safety risk pools, the Plan's actuarially determined rate is based on the estimated amount necessary to pay the Plan's allocated share of the risk pool's costs of benefits earned by employees during the year, and any unfunded accrued liability.

The employer is required to contribute the difference between the actuarially determined rate and the contribution rate of employees. For the measurement period ending June 30, 2015 (the measurement date), the active employee contribution rate is 7.942 percent of annual pay, and the average employer contribution rate is 18.775 percent of annual payroll for the miscellaneous plan. Employer contributions were of \$390,955 were made during the measurement period ended June 30, 2015. The City made an additional contribution for the measurement period of \$471,688 toward the payment of the unfunded accrued liability.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred inflows of Resources Related to Pensions – At June 30, 2015, the City reported a liability of \$2,684,713 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2014. The City's proportion of the net pension liability was based on a projection of the City's long-term share of contributions to the pension plan relative to the projected contributions of all participating governments, actuarially determined. At June 30, 2016, the City's proportion was 0.03911.

For the measurement period ending June 30, 2015, the City recognized pension expense of \$136,435. At June 30, 2016, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

CITY OF SOLVANG
Notes to the Basic Financial Statements

5. Other Information (Continued)

D. Public Employee Pension Plans (continued)

<u>Miscellaneous plan:</u>	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual experience	\$ 24,650	\$ -
Changes in assumptions	-	(233,213)
Net difference between projected and actual earnings on pension plan investments	-	(116,913)
Changes in proportions and differences between expected and actual contributions	482,059	-
Pension contributions subsequent to the measurement date	275,424	-
<u>Safety plan:</u>		
Differences between expected and actual experience	-	(512)
Changes in assumptions	-	(2,357)
Net difference between projected and actual earnings on plan investments	-	(1,194)
Changes in proportions and differences between expected and actual contributions	-	(13,380)
Totals	<u>\$ 782,133</u>	<u>\$ (367,569)</u>

The \$275,424 reported as deferred outflows of resources is City contributions to the pension plan made subsequent to the measurement date and will be recognized as a reduction of the net pension liability in the plan year ended June 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

<u>Miscellaneous and Safety Plans</u>	
<u>Measurement Period Ended June 30</u>	<u>Deferred Outflows (Inflows) of Resources</u>
2017	\$(5,465)
2018	(1,173)
2019	(5,131)
2020	150,909
2021	-
Thereafter	-

Actuarial Assumptions – The total pension liability in the June 30, 2014 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.75 percent
Salary increases	Varies by entry age and service
Investment rate of return	7.65 percent, net of pension plan investment expense, including inflation

All other actuarial assumptions used in the June 30, 2014 valuation were based on the results of an actuarial experience study for the fiscal years 1997 to 2011, including updates to salary increase, mortality and retirement rates. The Experience Study can be obtained at the CalPERS website under Forms and Publications.

Notes to the Basic Financial Statements
June 30, 2016

5. Other Information (Continued)

D. Public Employee Pension Plans (continued)

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension cash flows. The expected rate of return was then set equivalent to a single equivalent rate calculated by CalPERS and rounded down to the nearest one quarter of one percent.

The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	New Strategic Allocation	Real Return Years 1-10	Real Return Years 11+
Global Equity	47.0%	5.25%	5.71%
Global Fixed Income	19.0	.99	2.43
Inflation Sensitive	6.0	.45	3.36
Private Equity	12.0	6.83	6.95
Real Estate	11.0	4.50	5.13
Infrastructure & Forestland	3.0	4.50	5.09
Liquidity	2.0	(.55)	(1.05)

Discount Rate – The discount rate used to measure the total pension liability was 7.65 percent. To determine whether the municipal bond rate should be used in the calculation of a discount rate for each plan, CalPERS stress tested plans that would likely result in a discount rate that would be different from the actuarially assumed discount rate. Based on the testing, none of the tested plans run out of assets. Therefore, the current 7.65 percent discount rate is adequate and the use of the municipal bond rate calculation is not necessary. The long-term expected discount rate of 7.65 percent will be applied to all plans in the Public Employee Retirement Fund.

Sensitivity of the City's proportionate share of the net pension liability to changes in the discount rate

The following presents the City's proportionate share of the net pension liability calculated using the discount rate of 7.65 percent, as well as what the City's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower (6.65 percent) or 1-percentage higher (8.65 percent) than the current rate:

	1% Decrease (6.65%)	Current Discount Rate (7.65%)	1% Increase (8.65%)
City's proportionate share of the net pension liability			
Miscellaneous Plan	\$4,364,935	\$2,685,460	\$1,298,858
Safety plan	\$ 63,219	\$ (747)	\$ (53,198)

Pension plan fiduciary net position - Detailed information about the pension plan's fiduciary net position is available in the separately issued CalPERS financial report.

CITY OF SOLVANG
Notes to the Basic Financial Statements

5. Other Information (Continued)

E. Restricted Net Position and Fund Balances

The \$3,121,123 restricted amount in the governmental activities statement of net position represents amounts to be used only for specific purposes which restrictions are imposed by laws, formal agreements or other governments.

F. Other Post- Employment Benefits

Plan Description. The city administers the City's retired employee's healthcare plan, a single employer defined benefit health care plan. The plan provides medical benefits to eligible retired employees and their beneficiaries. The City's plan is affiliated with the State of California PERS in so far as the City's health insurance premium payments are paid to the PERS. The PERS through an aggregation of single employer plans pools administrative functions in regard to purchases of commercial health insurance policies and coverage. City resolutions and regulations assign the authority to establish and amend benefit provisions to the City. A separate OPEB trust fund has been established by the City.

Funding Policy. The contribution requirements of plan members and the City are established and may be amended by the City. The required contribution is based on a projected pay-as-you-go financing requirements, with additional amounts to prefund benefits as determined annually by the City Council. For the fiscal year ended June 30, 2016, the City contributed \$104,618 of current year premiums (100% of total premiums) and \$402,056 to prefund benefits. Plan members receiving benefits contributed no amounts of the total premiums.

Annual OPEB Costs and the NET OPEB Obligation. The City's annual other post employment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of Governmental Accounting Standards Board Statement Number 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and to amortize any unfunded liabilities over a period not to exceed 30 years. The following table shows the components of the City's annual OPEB cost for the year, the amounts actually contributed to the plan, and changes in the City's net OPEB obligation to the Plan:

Annual required contribution (ARC)	\$175,039
Interest on net OPEB obligation	35,947
Adjustments to the ARC	<u>(35,945)</u>
Annual OPEB expense	175,041
Contributions made	(506,674)
Change in net OPEB obligation	(331,633)
Net OPEB Obligation, beginning of year	<u>553,025</u>
Net OPEB Obligation, end of year	<u>\$221,392</u>

The City's annual OPEB Cost, the percentage of the annual OPEB cost contributed to the plan, and the net OPEB obligation for the last two fiscal years were as follows:

CITY OF SOLVANG
Notes to the Basic Financial Statements
June 30, 2016

Other Information (Continued)

F. Other Post- Employment Benefits (continued)

Fiscal Year Ended	Annual OPEB Cost	Percentage Contributed	Net OPEB Obligation
June 30, 2016	\$175,041	289.5%	\$221,392
June 30, 2015	\$156,202	58.8%	\$553,025
June 30, 2014	\$152,253	46.6%	\$488,608
June 30, 2013	\$161,929	52.1%	\$407,271

Funding Status and Funding Progress. As of July 1, 2016, the most recent actuarial valuation date, the plan was 16.83 percent funded. The actuarial accrued liability for benefits was \$2,397,892. And the actuarial value of plan assets was \$403,472, resulting in an unfunded actuarial liability (UAAL) of \$1,994,420. The covered payroll (annual payroll of active employees covered by the plan) was \$2,539,234 and the ratio of the UAAL to the covered payroll was 78.54 percent.

Actuarial valuations of an ongoing plan involve estimates of reported amounts and assumptions about the probability of occurrence of events into the future. Examples include assumptions about future employment, mortality, and health care trends. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplemental information, following the notes to these financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to actuarial liabilities for benefits.

Actuarial Methods and Assumptions. Projections of benefits for financial reporting purposes are based on the substantive plan (the Plan as understood by the employer and the plan members) includes the types of benefits provided at the time of each valuation and the historical pattern of sharing benefits costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short term volatility in actuarial liabilities and the actuarial value of plan assets, consistent with the long-term perspective of the calculations. In the July 1, 2016 valuation, the entry age normal actuarial cost method was used. The actuarial assumptions include a 6.5 percent investment rate of return based on assumed long-term return on plan assets or employer assets, as appropriate and a 2.75 percent assumed rate of inflation. This is based on the long-term historical returns for surplus funds invested pursuant to the California Government Code. An annual health care trend rate of 4 percent was also used in the valuation. There were no plan assets at the valuation date. The UAAL is being amortized as a level percentage of payroll over 23 years, the remaining closed amortization period at June 30, 2016.

G. Conduit Debt Obligation

The City, in July 2013, in order to provide financial assistance to private sector entities for the construction of facilities deemed to be in the public interest, entered into a Master Lease and Sublease Agreement with the Banc of America Public Capital Corporation and the Solvang Lutheran Home, Inc in the amount of \$3.2 million. The Agreement is a special arrangement of the City, payable solely by a pledge of rentals to be received from lease agreements between the parties and the Solvang Lutheran Home. The lease agreements do not constitute a debt or pledge of the faith or credit of the City, and accordingly have not been reported in the accompanying financial statements.

CITY OF SOLVANG
Notes to the Basic Financial Statements
June 30, 2016

5. Other Information (Continued)

H. Change in Accounting Principle

The City in fiscal 2016 implemented the Governmental Accounting Standards Board (GASB) Statement Number 72, *Fair Value Measurement and Application*. The implementation of this accounting standard resulted in no restatement of the beginning of year net position of the City's governmental and business-type activities.

The City in fiscal 2016 changed its method of accounting for payments made to the Central Coast Water Authority (CCWA) for the costs of water being supplied under an operating agreement. In prior years, the City had followed the practice of charging to expense payments made to the CCWA for water deliveries to be made in the immediate year subsequent to the payment. The City was obligated to make these payments generally within one or two months before the end of each fiscal year. In order to align itself with the billing practices of the CCWA under the agreement, the City changed its method to instead report this pre-water delivery payments as prepayments of expenses and reported them as a current asset of the water enterprise. In addition, the City also capitalized a rate reserve cash account held by the CCWA as a reserve for rate payment purposes. The rate reserve deposit is refundable to the City under certain conditions of the agreement should the City exercise its rights for a refund of the deposit.

The impact of this account change was to add assets for the prepayment and the rate reserve fund to the net position of the water enterprise as of the beginning of the 2016 fiscal year. The reporting impact was:

	<i>Water Enterprise</i>	<i>Other Enterprises</i>	<i>Total Business Type-Activities</i>
<i>Net position, June 30, 2015, as originally reported</i>	\$6,212,705	\$10,992,212	\$17,204,917
<i>Change in accounting principle:</i>			
<i>Record water delivery prepayment</i>	2,711,784	-	2,711,784
<i>Record rate-reserve deposit</i>	606,968	-	606,968
<i>Net position June 30, 2015, as restated</i>	\$9,531,457	\$10,992,212	\$20,523,669

The effect on fiscal 2016 operating results of the water enterprise was to decrease net earnings by about \$295,000.

STATISTICAL SECTION

This part of the Government's comprehensive annual financial report presents detail information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the government's overall financial health.

Contents	Page
Financial Trends	87-91
<i>These schedules contain trend information to help the reader understand how the government's financial performance and well-being have changed over time.</i>	
Revenue Capacity	92-99
<i>These schedules contain information to help the reader assess the government's most significant local revenue sources: taxes and water revenues.</i>	
Debt Capacity	100-103
<i>These schedules present information to help the reader assess the affordability of the government's current level of outstanding debt and the government's ability to issue additional debt in the future.</i>	
Demographic and Economic Information	104-105
<i>These schedules help the reader understand the environment within which the government's financial activities take place.</i>	
Operating Information	106-108
<i>These schedules contain service and infrastructure data to help the reader understand how the information in the government's financial report relates to the services the government provides and the activities it performs.</i>

Source: County of Santa Barbara Assessor's Office

Note: In 1978 the voters of the State of California passed Proposition 13 which limited taxes to a total maximum rate of 1% based upon the assessed value of the property being taxed. Each year, the assessed value of property maybe increased by an inflation factor (limited to a maximum of 2%). With few exceptions, property is only reassessed as a result of new construction activity or at the time it is sold to a new owner. At that point, the property is reassessed based upon the added value of the construction or at the purchase price (market value) or economic value of the property sold. The assessed valuation data shown above (in our reports) represents the only data currently available with respect to the actual market value of taxable property and is subject to the limitations described above.

Notes:

(1) Overlapping governments are those that coincide, at least in part with geographic boundaries of the city. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the property taxpayers of the City of Solvang. This process recognized that, when considering the government's ability to issue and repay long-term debt, the entire debt burden borne by the property taxpayers should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping government.

(2) Percentage of overlapping agency's assessed valuation located within boundaries of the city.

2016	\$ 40,226,713	\$ -	0.00%

Legal Debt Margin Calculation for Fiscal Year 2016

Assessed Value	\$ 1,072,712,344
Debt Limit (3.75% of assessed value)	40,226,713
Less debt applicable to limit:	
General Obligation bonds	0
Total debt applicable to limit	0
Legal Debt Margin	\$ 40,226,713

Sources: Santa Barbara County Assessor's Office and California Municipal Statistics, Inc.

Note: California Government Code, Section 43605 sets the debt limit at 15%. The code section was enacted when assessed valuations were based on 25% of full market value. This has since changed to 100% of full market value. Thus the limit shown is 3.75%, one-fourth the limit of 15%.
