SOLVANG, CALIFORNIA

PUBLIC NOTICE: Water Main Replacement Project in Nyborg Estates

The City of Solvang, along with our contracted engineering firm, will be managing essential construction work in the Nyborg Estates area as part of a **Water Main Replacement Project** to improve water service reliability and infrastructure. The areas that will be affected are designated in the attached map.

Project Scope

The project will include:

- Relocation and replacement of **water mains**
- Installation of new **water services, water meters, and water valves**
- Temporary **water shutdowns** and **cut-in connections**
- **Abandonment of existing facilities** no longer in use
- Other necessary related work and **site cleanup**

Anticipated Construction Schedule

- Start Date: June 2025
- Estimated Completion: November 2025

The City will provide a follow up notification once a contractor is selected to perform the construction project, providing firmer date ranges.

Expected Impact

Residents and businesses in the affected areas may experience temporary water service interruptions, noise, and construction-related traffic. Advance notice will be provided for any planned water shutdowns. We appreciate your patience and cooperation as we work to enhance the water system in your community.
